

ORGANISED SCREENING FOR CERVICAL CANCER

FROM 25 TO 65 YEARS OLD

for all women, without symptoms
or a history of the condition.

EVERY 3 TO 5 YEARS

every 3 years before the age of 30, then
every 5 years until the age of 65.

GET TESTED

at a gynaecologist, midwife,
general practitioner or laboratory.
100% coverage for sample analysis.*

90% OF CANCERS

of the cervix are preventable through
HPV vaccination and regular screening.

THEY DID IT

*"It was done with great sensitivity, and my
privacy was respected."* Nadia, 28 years old
